

Dmytro Telnov

JavaScript Developer, Calgary, AB

403-837-0700 | detelnov@gmail.com | <https://www.linkedin.com/in/dtlnv> | <https://github.com/dtlnv>

SUMMARY

Experienced web developer skilled in both frontend and backend development. Proficient in creating scalable, secure, and user-friendly web applications and websites. Adaptable problem-solver and a quick learner. Switched to JavaScript in 2019 after 5+ years of PHP development experience, consistently expanding the skill set.

SKILLS

Main Stack: JavaScript, React.js, Node.js, Express.js, TypeScript, HTML, CSS (SASS/SCSS), Next.js.

Web Development: DOM, REST API, JSON, AJAX, NPM, Yarn, Webpack, Unit Testing.

Design Tools: Figma, Adobe Photoshop.

Database Management: MySQL, PostgreSQL, SQL.

Version Control & CI/CD: Git, GitHub, GitHub Actions, BuildKite.

Development Methodologies and Collaboration Tools: Agile, Scrum, Atlassian Jira/Confluence, Slack, MS Teams.

Familiar with: MongoDB, Python, React Native, GraphQL, AWS, Vue.js.

Other: Code Review, Refactoring, Debugging, Google API, GCP, SEO, Browser Extensions, PHP, Redux.

PROFESSIONAL EXPERIENCE

Frontend JavaScript Engineer, Capgemini Engineering

04/2021 - Present, Remote

- Developing and improving Chrome extensions that have over 500,000 active users and focus on data encryption/decryption and digital privacy.
- Maintaining code integrity and reliability through refactoring legacy code, bug fixing, implementing improvements, and creating unit tests, ensuring high levels of code quality and performance.
- Stack: JavaScript, React.js, HTML, SASS/SCSS, Git, Browser Extensions, Service Workers, Google API, Google Cloud Platform, Webpack.

JavaScript Developer, AVTOR

04/2020 - 04/2021, Kyiv, Ukraine, Remote

- Streamlined development and promoted code reusability by building an internal frontend library with reusable React components.
- Led the creation of innovative web applications from scratch using the latest JavaScript frameworks and technologies, including React.js, SASS/SCSS, Next.js, Node.js, Express.js, MySQL, Figma, and Git/GitHub.
- Fostered team growth and knowledge sharing by mentoring junior developers, providing expertise, and creating comprehensive code documentation.

Technical Reviewer and Web Developer, TemplateMonster

03/2017 - 03/2020, Mykolaiv, Ukraine

- Upheld quality standards and safeguarded intellectual property through comprehensive design and code reviews for CMS, eCommerce, HTML, and Graphic templates, verifying documentation, and detecting plagiarized content.
- Enhanced knowledge base and consistency by training new technical reviewers and creating a handbook with best review practices.
- Automated workflows, saving about 30% of my team's time, and increased productivity by developing tools, analyzers, and code reviewers using React.js, PHP, Node.js, and MySQL, as well as a time-saving Chrome extension for process overview.
- Designed and implemented a database management system for vendors.
- Realized significant efficiency gains by reducing manual tasks, streamlining processes, and increasing departmental productivity through the implementation of these tools.

EDUCATION

Bachelor's Degree in Computer Engineering

09/2012 - 06/2015, V.O. Sukhomlynsky National University of Mykolaiv (Evaluated by WES Canada)
